(b) (6) and (b) (6),

Thank you again for all of your time and effort in supporting our shoot. Although it's difficult to be specific about requests for locations prior to scouting, below are the settings in our script that we'd like to shoot at Kirtland AFB.

EXTERIORS---

BASE ENTRY GATE  
BUS PARKING LOT  
TARMAC

INTERIORS---

BOWER'S OFFICE / CORRIDOR  
STORAGE ROOM  
BASE ADMINISTRATION OFFICE  
SPENCER / DILLER HOUSE

Please let me know if either of you would like to discuss any specifics.

Best,

(b) (6)

Hi (b) (6) - Hope everyone had a great Thanksgiving! I wanted to let you know that the scene for Exterior Fort Campbell at Double Eagle will be changing locations and moving to our K2 location therefore NO C-130 will be needed..Thank You very much for your efforts we really appreciate it.

Thank You

(b) (6)

On 11/23/16, 2:55 PM, (b) (6) USAF SAF SAF/PAYL wrote:

Hi (b) (6),

I spoke with Kirtland yesterday and they are going to follow up with me on Monday. The good news is that there are C-130s at Kirtland. The not so good news is that there may be an issue with whether or not the Double Eagle runway can withstand the weight of the aircraft by military standards. They are checking on this and will let me know Monday. Hopefully, it won't be a problem but just letting you know what the initial concerns may be.

I will be in the office in Monday and will let you know as soon as I know something.

Happy Thanksgiving to you and yours as well.

Best,

(b) (6)

(b) (6),  
I've been in touch w (b) (6). We're looking at scouting Holloman early next week.  
Since we will most likely base out of Albuquerque as much as we can it might be better to scout Kirtland first in hopes of finding everything we need there.  
Is it possible to put me in contact with someone at Kirtland yet?  
Thank you!!

Best,

(b) (6)

Hi (b) (6). I apologize for bothering you again about Horse Soldiers.

I spoke to (b) (6) at Kirtland. He said he did have the correct information about what we hope to find. He wants to speak to you before he will talk about us scouting tomorrow as planned. He also said his big event is next week at Kirtland (not this week) so they are completely unavailable to us next week.

We are now in a very heavy time crunch to find important locations. Since we are basing out of Albuquerque, shooting at Kirtland is greatly preferred, if not critical to our plan, over shooting at Holloman. Again, I apologize for being so persistent on this but we don't even know if Kirtland will work for us creatively until we get a look at it and we are almost out of time to make the appropriate assessment.

Thank you!

Best,

Gentlemen,

I need an update on the (b) (4) and when that will be signed. We have Army assets (aircraft) on the ground, and that needs to be signed before we can move forward with working with those assets.

The first thing the flight crews want to do is a familiarization for all film personnel who will be working in and around the aircraft. They want to do that as soon as possible.

## **Environmental Office Requirements**

Ensure AF 813 includes a description of **ALL** activities and location maps.

### **Property concerns**

- Large portions of KAFB are permitted to other organizations; additional coordination required
- Filming requires a Real Property document, which may require permits or surveys. The filming company is responsible for any associated fees.

### **Off-road driving**

- Strictly prohibited due to widespread occurrence of archaeological sites

### **Surface and ground disturbance**

- Requirements vary based on the size of the area disturbed, and may include:
  - Digging 3 inches or more below the ground surface requires a dig permit; *2-week lead time*
  - Fugitive Dust Permit. Associated costs paid by production company; *5-week lead time*
  - Mandatory compliance with the provisions of 20.11.20.12 NMAC; *1-month lead time*
  - Implementation of storm water best management practices
  - Construction General Permit to include a Storm Water Pollution Prevention Plan & draft Notice of Intent, submitted to Kirtland AFB and EPA; *4-week lead time*

### **Use of pyrotechnics and simmunitions**

- Open Burn/Open Detonation permit from the City of Albuquerque is required; *1-week lead time*
- Report munition items expended during filming to 377 MSG/CEIE Air Quality Program

### **Environmental Restoration/Remediation**

- Pyrotechnics/simmunitions cannot be used in Military Munitions Response Program areas
- Remediation equipment must be avoided

### **Wildlife**

- Existing migratory bird nests cannot be disturbed during nesting season (1 March – 31 August)

### **Historic structures**

- Any proposed modifications require advance consultation with the State Historic Preservation Office; *2-month lead time*

### **Hazardous Materials / Waste**

- Chemicals stored or used on Kirtland AFB during filming must be identified (provide Material Safety Data Sheets (MSDS))
- Waste resulting from chemical use must be disposed of in accordance with federal, state, and USAF regulations

### **Tribal concerns**

- Consultation with the Tribal Historic Preservation Office may be necessary; *30+ day lead time*

### **Trash disposal**

- Use of installation dumpsters is strictly prohibited

**Subject:** FW: (AFTN 177-1609 ) Revised Horse Soldiers screenplay  
**Date:** Monday, September 19, 2016 11:57:28 AM

---

Greetings (b) (6),

(b) (6) forwarded your name and contact regarding the aforementioned script. It's our understanding that you were hoping to scout some Air Force bases this week. Unfortunately, due to schedules and the fact that most of our facilities just finished celebrating the Air Force Birthday, we would be unable to accommodate any type of scout this week but we may be able to look at providing some initial support (depending upon the asks) next week (the week of Sept 26th or later).

What would help us move this request forward is if you could provide me with your "asks" (I believe you provided this information to the US Army already?)-- once received, we could investigate whether or not our folks could support a visit.

Please let me know your thoughts. We look forward to hearing from you.

Best,

(b) (6)

(b) (6)

(b) (4)

---

Gentlemen,

Being SUPER honest--not sure I can get a C17 to Kirtland for filming. They may need to go to where they are. I'm checking to see if there is something close. If I can get the C-17; they would have to pay for crew and transport. Again, that's a big IF. Let me see what I find out and will let you know as soon as I can.

Cheers~

Hi (b) (6) -- I was in a meeting yesterday and U.S. Army Special Operations Aviation Command wanted me to confirm the exact dates the aircraft will be needed. They are trying to de-conflict another request. Also, everyone is curious about whether anyone who was involved in the actual Horse Soldier operation may be consulting with Jerry Bruckheimer on the project. Any insight would be appreciated.

**Subject:** Feasibility Assessment - Horse Soldiers

Sir,

Attached is the (b) (4) s "Horse Soldiers". This movie is based on the book of the same name written by Doug Stanton and will be produced by (b) (6). I will get this into the G3 tasking system but the details of the request are below: (6)

**WHAT:** Military assistance to "Horse Soldiers" - a depiction of the ODAs entering Afghanistan post 9-11 ASSETS

**REQUESTED:** 2 x MH-47s/ 2 x MH-60s

**LOCATION:** Albuquerque, NM

**TIME:** Request assets from 6-17 December

**APPROVAL:** This request has DoD approval with concurrence from SOCOM Public Affairs

LTC (b) (6)  
Director of Public Affairs  
US Army Special Operations Command  
Office: (b) (6)  
BB: (b) (6)

**Subject:** FW: Horse Soldiers Equipment List  
**Date:** Tuesday, November 01, 2016 10:11:00 AM  
**Attachments:** (b) (4)

---

(b) (6),

When you have a minute please look (b) (4). They only have two days of shooting at Kirtland AFB. They have selected a civilian airfield Double Eagle Airfield to use as well. I assumed that the USAF would not move any equipment over to the civilian airfield and that the production company would need to completely dress the Double Eagle set.

I also asked that the Elephant Butte Lake scene be pushed back because of the facial hair issue. That request fell on deaf ears. I will ask about pushing Kirtland back. The more they can get done at Double Eagle, the less they need to do at Kirtland.

They are not going to be able to get CH-47s for 2 months. But as (b) (6) told me about the Zodiac Fast Boat shoot, we will cross that bridge when we come to it.

I am going to draft the OSD letter today for your review. Need to get something down on paper so that I can start requesting assets.

Subject: Movie Horse Soldiers - Fort Campbell School logos

(b) ,

The Department of Defense is supporting the (b) (6) "Horse Soldiers". The movie is based on the Doug Stanton book by the same name. "Horse Soldiers" is the dramatic account of a small band of Special Forces soldiers who secretly entered Afghanistan following 9/11 and rode to war on horses against the Taliban.

The production is recreating Fort Campbell scenes in New Mexico.

Can you assist in getting permission to recreating the attached school signs? I don't know if they are DOD Schools or county schools. Thank you

Hi (b) (6),

This is just background set dressing for the base. These are schools that apparently exist on the base. We would like to possibly see these logos as incidental set dressing. The school district in charge asked that the DoD approve.

Thanks,

Hi Capt (b) (6),

It was NOT denied. The issue was timing. Kirtland has an exercise scheduled for late November. The filming was requested to begin in the first week of December. With prep and the up to 9 weeks of required time to get through KAFB's environmental requirements for any type of filming, we asked the film company if they could delay filming at KAFB until Jan 2017. The film company is scheduled to film through Jan.

I'm am working with USA office as they are the lead service on this.

If there is more information needed, please let me know.

Lt Col (b) (6)

Do you have any background information on why the request for the movie  
"Horse Soldiers" to film at Kirtland AFB was denied? If you could send any  
information you have by COB Monday that would be great.

We were contacted by SecARMY's office to ask for more details. SecAF and  
SecArmy are filming the Daily Show together next Thursday in NYC so hoping  
to have it resolved before then. Additional background below in email  
traffic and attached. Please keep close hold.

If you need anything from me, just let me know. Have a great weekend!

Hi (b) (6),

I was contacted by SecARMY's office re: a film crew wanting to shoot a movie at Kirtland. As I understand it, from the Army, the request is being denied by PA at Kirtland. Can you find out why?

I have not spoken with SecAF about it, but will since Sec ARMY is sure to raise next Thursday. Sec. Fanning's CoS told me someone brought this to SecARMY's attention in the last few days.

Thanks for looking into and have a good weekend.

Best,

Subject: Horse Soldier Movie

Mr. (b) (6),

I'm the point of contact from the Army Special Operations Aviation Command, the higher headquarters for the 160th. Below is a list of RFIs from the 160th in reference to the movie. Also, there are a few different people from our command and our higher command that have been involved with the details regarding this movie. Is the movie company still requesting a one MH-47G and one MH-60M or is it down to just one MH-47G?

I have CC'd the trip commander from the 160th, the lead 47G pilot, and the lead 60M pilot in this email as well.

1. Where are the helicopters staging out of? Kirtland AFB or Double Eagle (the 160th regularly uses this airfield)?
2. Do the crews need to arrange their own hotels or is the movie company providing a location for all?
3. Will the production company require communications from their personnel on the ground to the aircraft. If so, what frequencies and type(s) of radios?
4. Is there a full schedule that provides the following level of detail:

-NLT date for the helicopters' arrival

-Requirements on 6 Dec (Concept of Operation Brief?  
Rehearsals?)

-Are the MH-47Gs mission complete on 14 Dec?

-What is happening 8 Dec to 11 Dec?

5. What type of flying profiles

-7 Dec: MH-60 Flight Day / NVG and any intent to land anywhere other than hardstand?

-12-13 Dec: MH-47 Flight Day / NVG and any intent to land anywhere other than hardstand?

-14 Dec: MH-47G Flight Day / NVG dust approaches?

6. Full PAO guidance

-What can/cannot be discussed?

-Flying profiles: What are our left and right limits about how we can fly?

-Are we 100% sure there will not be a request to have civilians on our helicopters?

-Who is the POC from the filming company and do we have authorization to DIRLAUTH?

7. Is the MH-60 Mission complete after 7 Dec (If the 60Ms are still requested)?

**Subject:** Horse Soldiers - Extras  
**Date:** Wednesday, November 16, 2016 4:22:00 PM  
**Attachments:** (b) (4)

---

(b) (6),

Thank you for the email. The Department of Defense intends to support the (b) (6) "Horse Soldiers". The film is based on the Doug Stanton book by the same name about the US Army Special Forces Soldiers that went into Afghanistan immediately after 9/11 to fight alongside the Northern Alliance against the Taliban. The script follows the book very closely. The (b) (4) has not yet been signed. Waiting on final details from the Production Company and the US Air Force.

The letter outlines the support that the DoD may provide to the Production Company. Dates, Times and locations may change, the DoD letter is based on the Production Company's initial request. Casting is the responsibility of the Production Company. The Production Company may hire Service members in an off-duty (leave or pass), non-official status to perform as extras or actors in minor roles, etc., provided there is no conflict with any existing Service regulation. In such cases, contractual arrangements are solely between those individuals and the Production Company; however, payment should be consistent with current industry standards. The producer is responsible for resolving any disputes with unions governing the hiring of non-union actors and extras. Service members accepting such employment will comply with the standards of conduct in DoD Directive 5500.07 (Reference (c)). The DoD Component heads may assist the production company in publicizing the opportunity for employment and in identifying appropriate personnel. Commanders should treat this opportunity as off duty employment.

Given that the story is during September - December 2001, the production company will be required to provide period uniforms, boots and equipment for the film. Soldiers at that time would most likely be wearing the Battle Dress Uniform (BDUs) for the scenes depicting CONUS bases and Desert Combat Uniform (DCUs) for those scenes depicting overseas locations. The Army Combat Uniform (ACUs) and Multi-Cam were not an Army uniform in 2001 and none of our soldiers had yet received the Rapid Fielding Initiative (RFI) gear (Camelbacks, ACH, Digitized Pattern MOLLE, etc.).

Bottom line, off duty service members, with their commander's permission, can apply to be extras in the film.

+++ Hello (b) (6),

Thanks for your interesting email about casting Soldiers for the movie, "Horse Soldiers." It sounds like a wonderful opportunity. These types of requests are better posed to Public Affairs. I will include our IMCOM PAO on this email, along with MWR Marketing Directors at Forts Hood, Bliss and White Sands.

+++ Hello IMCOM PAO (b) (6)

Theresa is our MWR Marketer at Fort Jackson. Her request is below. Please reach out to your colleagues at Forts Bliss, Hood, White Sands and --- if you have a contact --- Kirtland AFB.

+++ Hello MWR Marketers,

I am including you on this email for your awareness. Please remember that your local Public Affairs Office is responsible for handling media --- especially requests like this one. You can coordinate directly with your PAO about how to publicize the opportunity in your MWR publicity.

Good Luck Everyone!

Subject: Movie needs soldiers (UNCLASSIFIED)

Hi (b) (6)

A former coworker and Army spouse is doing the casting for a new movie, Horse Soldiers, starring Chris Hemsworth (Thor). They need Soldiers and former soldiers. It's all legitimate and filming in El Paso & White Sands, TX, Socorro & Albuquerque New Mexico. She has tried every avenue to contact Fort Hood, and some other posts but they won't respond to her emails, Facebook messages or phone calls. Do you think the IMCOM Marketing division might be interested? These are paid jobs. They also need amputees. Do you have any contacts? Here is her contact information:

(b) (6) cell (b) (6).

If anyone has ANY connections to Fort Bliss PAO or Kirtland Air Force Base in ABQ New Mexico please have them forward the links or contact (b) (6) directly. There will be having open casting calls this coming weekend.

Company Website:  
[www.sandealessicasting.com](http://www.sandealessicasting.com)

Potential Actors can register for free.

The Facebook Page:  
<https://www.facebook.com/castingnewmexico/?fref=ts>

I don't know all the ins and outs of you all being able to get our other Family and MWR marketing offices to share this on their Facebook pages, but it could be a good opportunity for Soldiers.

Thanks, (b) (6)

(b) (6)

(b) (6) @mail.mil

**Date:** Monday, November 07, 2016 10:51:00 AM

---

(b) (6) ,

I just spoke with (b) (6) from the production company. He is picking up the coordination from (b) (6) . (b) (6) is currently located in NM. They may want to look at Holloman now. They are checking with the scout. They are also thinking about Fort Bliss as well.

Just wanted to give you a warning order.

**Subject:** Horse Soldiers (b) (6) Movie  
**Date:** Wednesday, September 07, 2016 4:28:00 PM

---

Sir,

It looks like the movie Horse Soldiers is finally going to happen. The movie is based on Doug Stanton's book by the same name. I have read the book and the script and except for a few minor corrections to the script, it closely follows the book. The focus is on CPT (b) (6) Team and not on the CIA activities. The producer told me today they plan to have an actual Team Member on set during filming.

DOD is ready to support the movie. The support requirements are minimal. From the US Army the production company is looking for terrain, perhaps a remote location at White Sands Missile Range. As far as equipment, they are requesting 2 Chinook Helicopters for approximately 2 days to film the initial insertion when the SF Team links up with the Northern Alliance. The production company is on a steep glide slope and plan to begin principal photography in November 2016 in New Mexico. The production company is scouting White Sands this week, and possibly Holloman AFB for the Fort Campbell deployment sequences.

Before I reach out to a conventional unit for the CH-47s to replicate the 160th SOAR, do you think the actually unit would be interested in supporting the film?

**Subject:** Horse Soldiers - Kirtland, AFB Availability  
**Date:** Thursday, November 03, 2016 10:57:00 AM

---

(b) (6),

I just got off the phone with (b) (6). Kirtland AFB is not available to support filming of Horse Soldiers in December 2016. They can support the film request in January 2017.

That said, if an additional scout of Kirtland AFB is required, the PAO office can support a scout on Friday, 18 November 2016. The base is engaged in a major operation through the 17th and cannot support a scout until the operation is concluded.

---

Sir,

We are tracking Horse Soldiers. LTC (b) (6) and I have read the script. We are scheduling a meeting with (b) (6) team next week to discuss support requirements. The script closely follows the Doug Stanton by the same name but mainly focuses on our ODA and not the other government agencies.

I knew that the production company was going to scout White Sands, did not know they were going to wander into your area. DOD will most like provide assistance to the film. I probably won't have a DOD letter of conditional support until next week, the production assistance agreement (PAA) would follow a few weeks later with specific support requirements.

The production company plans to begin filming in November 2016.

(b) (6),

Thank you for your reply. Not sure why I did not receive your original email.

There are no attachments with the forward. Should there have been?

Unfortunately I do not think we will be able to react to this request on such short notice. Even if your email had come through yesterday, I don't think we would have been able to react without approval from US Army Public Affairs West in Los Angeles (OCA-LA).

We will need to confirm that the project has been approved by DoD and OCA-LA before moving forward with the scouting. I will check with (b) (6) to see if she has someone available this afternoon if we can get a verbal approval, but this is a long shot and I would not count on it.

Can you please forward the approval documents you spoke of on the phone?

We will try to help, but sorry if this doesn't work out as we normally need more lead time to confirm permission and schedule something like this.

Subject: DoD Project Scout for Orogrande Base Camp...

Lt. (b) (6) —

Thank you so much for visiting with me. The Project "Horse Soldiers" has DoD approvals for scouting and filming in New Mexico. I am the local state network film liaison, (b) (6), working under the NM Film Office as the sanctioned Otero County Film Liaison. Location Scout (b) (6) representing the studio and director is requesting permission to scout and take photos of Orogrande base camp for a location in this film. We are already scouting and helping with this project through WSMR and Public Affairs there since May. We believe that

locations at Orogrande would make an addition to other places nearby.

I appreciate any help that you could give us in scouting this, I have him in the town of Orogrande today with The mayor there. Here is a link for my office, and I am employed for both tourism, events and film by the City of Alamogordo and sanctioned by the county, state and AFCI. I have worked with you before on Transformers I and II scoutings and locations in 2006 and 2008.

(b) (6)

Best regards,

(b) (6), AFCI ReFilm Liaison

**Date:** Monday, August 15, 2016 1:47:00 PM

---

(b) (6)

Thank you for taking my call. The Department of Defense is preparing to support a movie request for "Horse Soldiers". The script is based on the Doug Stanton book by the same name.

Synopsis: Horse Soldiers is the dramatic account of a small band of U.S. Army Special Forces soldiers who secretly entered Afghanistan following 9/11 and rode to war on horses against the Taliban. Outnumbered forty to one, they pursued the enemy across mountainous terrain and, after a series of intense battles, captured the city of Mazar-i-Sharif, which was strategically essential if they were to defeat the Taliban.

The producer is (b) (6), so this is a real request. The production company is looking to film 7 November 2016 through 23 January 2017 in New Mexico. Not sure how much of that will be on location, but they were asking about the availability of WSMR. They would be looking for an area that is mountainous and could sustain a base camp of approximately 100 personnel. As implied in the title, there will be civilian horses used as part of the production. I am guessing that they will also be using a civilian helicopter as a camera aircraft. That aircraft would base at a civilian fixed base operator (FBO) but would need to be cleared into the restricted airspace. The production company would be responsible for any costs incurred by the installation (extra guards, range personnel, etc.). They are also responsible for returning the filming location back to its original condition (police calls, HAZMAT spills, etc.).

I was hoping you could check with your operations folks on the availability of an area during the NOV-JAN period. Thank you

v/r

(b) (6)

**Date:** Wednesday, February 01, 2017 10:44:21 AM

---

(b) (6),

Things are going well here on set. I think the film is going to look great. The DoD production value provided to the film not only included the 160th aircraft but Soviet vehicles provided by White Sands Missile Range (T-72 tanks, BMPs and hulks).

(b) (6)

Perhaps when we wrap next weekend you could send a note to (b) (6) and offer our services in post. We are free. Doesn't cost him anything and they will be finishing the movie in Santa Monica. We have put a lot of time into this movie. Hate to lose it in post. Thanks

Hello (b) (6).

The Air Force base in Albuquerque (Kirtland) is hosting a high level visitor and will not be available to host a scout this week. If something changes, they will let me know. I have no word back yet from our base in Alamogordo (near Ft Bliss); hasn't return phone calls yet so I don't have anything yet. Will keep you info'd if I hear anything soon.

Best,

(b) (6)

**Subject:** Re: (INFO/ACTION) Horse Soldiers Scout

Thank you (b) (6)

Our director, production designer and location manager all flew into El Paso this morning. They are scouting Bliss today and White Sands tomorrow and part of Wednesday. While they are all in New Mexico it would be very helpful if they could scout Air Force bases starting Wednesday or Thursday of this week. If there is anything I can do to help arrange this please let me know.

Thank you again.

Best,

Good morning,

I heard from Kirtland AFB and because of commitments and the Albq Balloon fest--they are severely undermanned. They said that they could host a scout next Friday (Oct 14) at the earliest. I can let (b) (6) and Co. know this but wanted to give you a heads up.

v/r,

MAJ (b) (6)

(b) (6) forwarded me the email you sent her in reference to the "Horse Soldiers" film. We appreciate your assistance with providing her with the needed information.

FYSA - Our office is already involved with the project, and we are preparing the (b) (4) for signature. We have reviewed the script, along with the book, and the project has been approved by OSD Public Affairs. OSD-PA's letter of approval, which is used for coordination until a (b) (4) is signed, is attached.

Throughout the process, we have been in discussions with LTC (b) (6) from USASOC. He and his chain of command are aware of the project and where we are in the process. There have been no issues from USASOC.

(b) (6),

It looks as if MAJ (b) (6) is working to gather all the information for you. For the acronyms you were asking about; USASOC stands for the United States Army Special Operations Command, USASFC stands for the United States Army Special Forces Command which is part of USASOC, and CSM stands for Command Sergeant Major which is the senior non-commissioned officer position in units at the battalion-level and above.

As I mentioned on the phone, our office has already been in discussions with (b) (6), (b) (6), and (b) (6) about this project, and we are preparing the documentation providing support to the film from the U.S. Army.

If there is anything else you need from the Army, please let us know.

Thank you.

MSG (b) (6),

I don't want to wait on the 100% solution. I will continue to get answers. I have added LTC (b) (6) (OCPA-LA) to this email. He will be on set in Albuquerque 29 November - 9 December 2016. I will be on set the remainder of December.

Attached are proposed landing zones and parking at Double Eagle. The parking at Double Eagle will change based on the additional aircraft. I have also attached the Horse Soldier One Line Schedule (Blue 11-14). Please keep the "One Line" close hold.

(b) (4)

Please bring a tow bar on each type aircraft.

Thank you again for your support.

v/r

Subject: Horse Soldier Movie

Mr. (b) ,

I'm the point of contact from the Army Special Operations Aviation Command, the higher headquarters for the 160th. Below is a list of RFIs from the 160th in reference to the movie. Also, there are a few different people from our command and our higher command that have been involved with the details regarding this movie. Is the movie company still requesting a one MH-47G and one MH-60M or is it down to just one MH-47G?

I have CC'd the trip commander from the 160th, the lead 47G pilot, and the lead 60M pilot in this email as well.

1. Where are the helicopters staging out of? Kirtland AFB or Double Eagle (the 160th regularly uses this airfield)?

2. Do the crews need to arrange their own hotels or is the movie company providing a location for all?

3. Will the production company require communications from their personnel on the ground to the aircraft. If so, what frequencies and type(s) of radios?

4. Is there a full schedule that provides the following level of detail:

- NLT date for the helicopters' arrival

- Requirements on 6 Dec (Concept of Operation Brief? Rehearsals?)

- Are the MH-47Gs mission complete on 14 Dec?

- What is happening 8 Dec to 11 Dec?

5. What type of flying profiles

- 7 Dec: MH-60 Flight Day / NVG and any intent to land anywhere other than hardstand?

- 12-13 Dec: MH-47 Flight Day / NVG and any intent to land anywhere other than hardstand?

- 14 Dec: MH-47G Flight Day / NVG dust approaches?

6. Full PAO guidance

- What can/cannot be discussed?

- Flying profiles: What are our left and right limits about how we can fly?

- Are we 100% sure there will not be a request to have civilians on our helicopters?

- Who is the POC from the filming company and do we have authorization to DIRLAUTH?

7. Is the MH-60 Mission complete after 7 Dec (If the 60Ms are still requested)?

---

Sir,

We received a revised request with the dates and locations. The number of aircraft was reduced from 6 aircraft (2 Chinooks, 2 Blackhawks, and 2 Apaches) down to 1 Chinook and 1 Blackhawk to save production costs.

The aircraft will be used for simulated combat insertions of an SOF A-Team, resupply missions of the SF Team as well as set dressing (static) on the ramp to simulate Fort Campbell before 9/11 and K2 Air Base after deployment. No civilian cast members will be onboard the aircraft when flying. There is nothing in the script about hoist operations.

Subject: Horse Soldier Movie

Gentlemen,

Here are a few RFI's from the 160th in reference to the Horse Soldier movie filming:

1. Who is the POC that the 160th can contact for details of what they will be doing in NM?
2. Would they (whomever is requesting the aircraft) be willing to accept 2 x 47s and 1 x 60?
3. The dates requested for the 160th fall within the month of December. The notification letter to the film company from the OSD mentions Kirtland AFB, NM and White Sands Missile Range, NM. Which location would the 160th be used at during filming?

Thank you.

Hi (b) (6),

I'm double, triple checking--Kirtland is getting final approval for the C-130 from the commander as we speak (email). I am going to turn it off. Once I do it, I won't be able to turn it back on. So, no C-130 is needed or ANY Air Force assets will be requested for this shoot, correct? The only assets are the Air Force extras depicted and dialogue from the script. If this is the understanding, please let me know via email. Thanks!!

We've had a lot of interest from senior leadership (to include the Secretary of the Air Force) and I want to be very clear when I inform them that this was a production decision.

Cheers~

(b) (6)

Initially our environmental folks said there had to be an EA in the area on or near Thurgood Canyon where they will be filming. However, after much discussion and clarification it was determined that the overarching EIS for maneuvering on WSMR satisfies the requirement.

The only thing that needs to be done is an archeology survey, which will be done this week or early next week. Depending on the results of the survey, this might limit the area where they want to film, but will not stop the production all together.

(b) (6)

I'm not sure about this one. WSMR is divided between the Garrison and ATEC and sometimes the lines are blurred. I'm going to punt this one to our Business Development office. Stand by.

(b) (6),

Thank you. One more question. The production company called me about the insurance. They wanted the name and address for the US Army. I assume it would be your garrison commander, but I am not quite sure how your organization is structured. Considering where they will be operating, if they need to payout for damages, which organization would be responsible for the cleanup / repairs.? Thanks

v/r

Subject: RE: Horse Soldiers - Environmental Impact Survey

(b) (6)

Initially our environmental folks said there had to be an EA in the area on or near Thurgood Canyon where they will be filming. However, after much discussion and clarification it was determined that the overarching EIS for maneuvering on WSMR satisfies the requirement.

The only thing that needs to be done is an archeology survey, which will be done this week or early next week. Depending on the results of the survey, this might limit the area where they want to film, but will not stop the production all together.

Thanks,

Cc: (b) (6) MS (USASOC); (b) (6) LTC USARMY HQDA OCPA (US)  
Subject: Horse Soldiers - (b) (6) Movie

Sir,

It looks like the movie Horse Soldiers is finally going to happen. The movie is based on (b) (6) book by the same name. I have read the book and the script and except for a few minor corrections to the script, it closely follows the book. The focus is on CPT (b) (6) Team and not on the CIA activities. The producer told me today they plan to have an actual Team Member on set during filming.

DOD is ready to support the movie. The support requirements are minimal. From the US Army the production company is looking for terrain, perhaps a remote location at White Sands Missile Range. As far as equipment, they are requesting 2 Chinook Helicopters for approximately 2 days to film the initial insertion when the SF Team links up with the Northern Alliance. The production company is on a steep glide slope and plan to begin principal photography in November 2016 in New Mexico. The production company is scouting White Sands this week, and possibly Holloman AFB for the Fort Campbell deployment sequences.

Before I reach out to a conventional unit for the CH-47s to replicate the 160th SOAR, do you think the actually unit would be interested in supporting the film?

<[mailto:\(b\) \(6\)@mail.mil](mailto:(b) (6)@mail.mil)> ]  
Sent: Monday, November 21, 2016 12:58 PM Mountain Standard Time  
To: (b) (6) USAF SAF SAF/PAYL  
Cc: (b) (6) LTC USARMY HQDA OCPA (US); (b) (6) CIV OSD PA (US)  
Subject: PAA Uniform Language

(b) (6),

I want to be more specific in the PAA about service uniforms to address pre and post deployment uniforms. Can you please look at the US Air Force paragraphs.

The production company agrees to cast actors, extras, doubles, and stunt personnel portraying military men and women who conform to individual Military Service regulations governing age, height / weight, uniform, grooming, appearance, and conduct standards. DoD reserves the right to suspend support in the event that disagreement regarding the military aspects of their portrayals cannot be resolved in negotiation between the production company and DoD within the seventy-two hour cure-period. The DoD Project Officer will provide written guidance specific to each Military Service being portrayed.

a. U.S. Army.

(1) The depiction of Soldiers in the Continental United States prior to the September 11, 2001 terrorist attacks should be in accordance with U.S. Army Regulation 670-1, West and Appearance of Army Uniforms and Insignia. Soldiers would meet height weight/standards, be clean shaven, with a well-groomed haircut and be wearing the Battle Dress Uniform (BDU). Load bearing equipment would be olive drab or the BDU pattern.

(2) The depiction of deployed Soldiers following the September 11, 2001 terrorist attacks would be in accordance with the tactical situation. Soldiers would still meet height/weight requirements (appear physical fit) with relaxed grooming standards for extended operations. The deployed Soldiers would be wearing the Desert Combat Dress Uniform (DCU) with olive drab or BDU pattern load bearing equipment.

b. U.S. Air Force

(1) The depiction of airmen in the Continental United States prior to the September 11, 2001 terrorist attacks should in accordance with Air Force Instruction 36-2903 (AFI 36-2903), Dress and Personal Appearance of Air Force Personnel. Airmen will be depicted in a neat, clean professional image. US Air Force ground personnel would wear the BDU, aircrews would wear the Flight Duty Uniform.

(2) The depiction of deployed airmen following the September 11, 2001 terrorist attacks should in accordance with Air Force Instruction 36-2903 (AFI 36-2903), Dress and Personal Appearance of Air Force Personnel. Airmen will be depicted in a neat, clean professional image. US Air Force ground personnel would wear the BDU, aircrews would wear the Flight Duty Uniform. Airmen that are assigned to U.S. Army units in a tactical environment would wear the same uniform and may adhere to the same grooming standards as the ground element.

Thanks

v/r

**Subject:** FW: Horse Soldiers Equipment List

(b) (6)

When you have a minute please look at the attached spread sheet. They only have two days of shooting at Kirtland AFB. They have selected a civilian airfield Double Eagle Airfield to use as well. I assumed that the USAF would not move any equipment over to the civilian airfield and that the production company would need to completely dress the Double Eagle set.

I also asked that the Elephant Butte Lake scene be pushed back because of the facial hair issue. That request fell on deaf ears. I will ask about pushing Kirtland back. The more they can get done at Double Eagle, the less they need to do at Kirtland.

They are not going to be able to get CH-47s for 2 months. But as (b) (6) told me about the Zodiac Fast Boat shoot, we will cross that bridge when we come to it.

I am going to draft the OSD letter today for your review. Need to get something down on paper so that I can start requesting assets.

I am the Director for the US Army Public Affairs office in Los Angeles. I got your contact info from LTC (b) (6) at USASOC Public Affairs.

My deputy LTC (b) (6) and I are the US Army's liaison to the entertainment industry. We have been contacted by (b) (6) production company about providing assistance to the movie "Horse Soldiers" based on Doug Stanton's book of the same name.

I have read Stanton's book and (b) (6) script. I would really like to talk with you about the book and the movie script. If you would please give me a call I would appreciate it. Really want to get this one right. Thank you

(b) (6),

He did not ask for a meeting.

I told him our two biggest issues were the back ground story of CPT (b) (6) being any FNG when he was actually a Team Leader for two years and the comment about Sergeant (b) (6) having a choice between Jail and the Army. According to the book the bar fight incident did happen, (b) (6) attorney was able to plea deal it down to a misdemeanor with a probation period. He did lose his job as a school teacher and he started to work construction. I period of time later, he decided to join the US Army. It can probably be corrected with a couple of line changes.

I am checking on the location of Chinooks near NM and the availability of WSMR. He told me that the director already scouted White Sands. Not sure what that meant. There is a state highway (SR 58) that goes right by White Sands and another that cuts across the SE corner (SR 70).

**Subject:** Horse Soldiers Movie (NOV 2016 - JAN 2017)

(b) (6),

The Department of Defense is preparing to support the major motion picture "Horse Soldiers" The script is based on the Doug Stanton book of the same name. (b) (6) is the producer, so this is a real request for support.

**Synopsis:** Horse Soldiers is the dramatic account of a small band of U.S. Army Special Forces soldiers who secretly entered Afghanistan following 9/11 and rode to war on horses against the Taliban. Outnumbered forty to one, they pursued the enemy across mountainous terrain and, after a series of intense battles, captured the city of Mazar-i-Sharif, which was strategically essential if they were to defeat the Taliban.

The Green Berets were inserted in with the Northern Alliance on 160th Chinooks. The production company will most likely film in New Mexico. They are asking for one maybe two CH-47s for two days. Assuming the 160th is busy and can't support, can you please tell me where the closest CH-47s are to White Sands Missile Range? Thank you

Hey (b) (6),

Think our emails crossed. I'm at a base with little to no cell reception so don't know if this got settled. Bottom line is that you should be good to go tomorrow with (b) (6). He said he'd confirm with (b) (6).

To manage expectations re: Kirtland, due to its environmental requirements, we can't get any waivers for filming without about a 60 day lead time. I don't know what the filming schedule is but you should know that's what we'd be up against.

Let me know if you have questions. I'll try to get back with you whenever I have a signal.

Best,

**Subject:** Re: Horse Soldiers scout of Kirtland AFB Albq

Hi (b) (6). I apologize for bothering you again about Horse Soldiers.

I spoke to (b) (6) at Kirtland. He said he did have the correct information about what we hope to find. He wants to speak to you before he will talk about us scouting tomorrow as planned. He also said his big event is next week at Kirtland (not this week) so they are completely unavailable to us next week.

We are now in a very heavy time crunch to find important locations. Since we are basing out of Albuquerque, shooting at Kirtland is greatly preferred, if not critical to our plan, over shooting at Holloman. Again, I apologize for being so persistent on this but we don't even know if Kirtland will work for us creatively until we get a look at it and we are almost out of time to make the appropriate assessment.

Thank you!

Best,

(b) (6)

---

(b) (6),

The base in Albuquerque (Kirtland Air Force Base) is unable to accommodate a scout until at least next Friday, Oct 14. If you can wait that long, let me know. Please note that I am traveling and out of the office until Friday, Oct 7. I will respond as timely to your emails as possible.

Best,

(b) (6)

---

All,

Here's what we're up against at Kirtland. And the AF 813 paperwork for the last project was 60 pages long. Location managers with experience with this can get this done quickly but it's still very time consuming. So we need a timeline pronto. I'm not sure we'll be able to stray over to the active duty side where the other hangars are but we can ask. I would plan, however, on staying on the side where we did Lone Survivor. We may also be able to utilize the transient ramp if we wanted to get a heavy cargo plane in but there are no heavies stationed at Kirtland so the production would have to bring something in.

Also, because Kirtland shares a flightline with the commercial airport; the company would have to bring in a military aircraft. If they use a commercial aircraft; they would have to film it on the commercial side of the runway.

Cheers~

v/r,

(b) (6)

**Subject:** Movie Horse Soldiers - Fort Campbell School logos

(b) (6) ,

The Department of Defense is supporting the (b) (6) "Horse Soldiers". The movie is based on the Doug Stanton book by the same name. "Horse Soldiers" is the dramatic account of a small band of Special Forces soldiers who secretly entered Afghanistan following 9/11 and rode to war on horses against the Taliban.

The production is recreating Fort Campbell scenes in New Mexico.

Can you assist in getting permission to recreating the attached school signs? I don't know if they are DOD Schools or county schools. Thank you

v/r

Subject: Re: School logos

Hi (b) (6),

This is just background set dressing for the base. These are schools that apparently exist on the base. We would like to possible see these logos as incidental set dressing. The school district in charge asked that the DoD approve.

Thanks,

(b) (6)

**Subject:** RE: Movie needs soldiers

+++ Hello (b) (6),

Thanks for your interesting email about casting Soldiers for the movie,  
"Horse Soldiers." It sounds like a wonderful opportunity. These types of  
requests are better posed to Public Affairs. I will include our IMCOM PAO  
on this email, along with MWR Marketing Directors at Forts Hood, Bliss and  
White Sands.

+++ Hello IMCOM PAO (b) (6)

(b) (6) is our MWR Marketer at Fort Jackson. Her request is below. Please

reach out to your colleagues at Forts Bliss, Hood, White Sands and --- if you have a contact --- Kirtland AFB.

+++ Hello MWR Marketers,

I am including you on this email for your awareness. Please remember that your local Public Affairs Office is responsible for handling media --- especially requests like this one. You can coordinate directly with your PAO about how to publicize the opportunity in your MWR publicity.

Good Luck Everyone!

(b) (6)

Subject: Movie needs soldiers (UNCLASSIFIED)

Hi (b) (6)

A former coworker and Army spouse is doing the casting for a new movie, Horse Soldiers, starring (b) (6) (Thor). They need Soldiers and former soldiers. It's all legitimate and filming in El Paso & White Sands, TX, Socorro & Albuquerque New Mexico. She has tried every avenue to contact Fort Hood, and some other posts but they won't respond to her emails, Facebook messages or phone calls. Do you think the IMCOM Marketing division might be interested? These are paid jobs. They also need amputees. Do you have any contacts? Here is her contact information:

(b) (6) cell (b) (6).

If anyone has ANY connections to Fort Bliss PAO or Kirtland Air Force Base in ABQ New Mexico please have them forward the links or contact (b) (6) directly. There will be having open casting calls this coming weekend.

Company Website:  
[www.sandealessicasting.com](http://www.sandealessicasting.com)

Potential Actors can register for free.

The Facebook Page:

<https://www.facebook.com/castingnewmexico/?fref=ts>

I don't know all the ins and outs of you all being able to get our other Family and MWR marketing offices to share this on their Facebook pages, but it could be a good opportunity for Soldiers.

Thanks, (b) (6)

(b) (6)

(b) (6)

---

(b) (6),

I have include (b) (6) (OCPA-LA) on the reply. He is en-route to ABQ to be on set. Filming individual soldiers should not be a problem. The aircrews can sterilize their uniforms and with head gear they should be okay when flying. No photos inside the aircraft can be accommodated as well, but LTC (b) (6) can verify tomorrow when he is on the ground.

Tail numbers when the aircraft are flying is another story. Do you have any suggestions to cover the numbers? We could have the production company paint over the numbers with wash off paint. We have used the paint on ground tactical vehicles before, but would need to check their paint product with your maintenance personal. We can get you the data sheet on the wash off paint.

v/r

All,

I am the flight lead and main coordinator for MH-47's flying in the movie. I am working with USASOAC and BG Evans to get approval for civilians to fly on our aircraft. From what I am being told, this will not be an issue and will be approved. We do not need an by name list of individual but just a daily manifest of who would be flying on board. Once the memo is approved, I will ensure all parties involved have a full understanding of what we can and cannot do while flying.

We are working to get uniforms for the flight crews to emulate what they wore in 2001. Our uniforms will be sterilized and not have any PII displayed. I will coordinate to have black tape available if the wash off paint doesn't work to (b) (2) and work it out with our CI and Standardization folks to make sure this is possible.

<(b) (6) @us.af.mil> wrote:

Hi Capt (b) ,

It was NOT denied. The issue was timing. Kirtland has an exercise scheduled for late November. The filming was requested to begin in the first week of December. With prep and the up to 9 weeks of required time to get through KAFB's environmental requirements for any type of filming, we asked the film company if they could delay filming at KAFB until Jan 2017. The film company is scheduled to film through Jan.

I'm am working with USA office as they are the lead service on this.

If there is more information needed, please let me know.

Lt Col (b) (6) -

Do you have any background information on why the request for the movie

"Horse Soldiers" to film at Kirtland AFB was denied? If you could send any information you have by COB Monday that would be great.

We were contacted by SecARMY's office to ask for more details. SecAF and SecArmy are filming the Daily Show together next Thursday in NYC so hoping to have it resolved before then. Additional background below in email traffic and attached. Please keep close hold.

If you need anything from me, just let me know. Have a great weekend!

Subject: FW: (b) (6) RAH (UNCLASSIFIED)

Hi (b) (6)

I was contacted by SecARMY's office re: a film crew wanting to shoot a movie at Kirtland. As I understand it, from the Army, the request is being denied by PA at Kirtland. Can you find out why?

I have not spoken with SecAF about it, but will since Sec ARMY is sure to raise next Thursday. Sec. Fanning's CoS told me someone brought this to SecARMY's attention in the last few days.

Thanks for looking into and have a good weekend.

Best,

(b) (6)

(b) (6),

Per below, this is the RAH we provided SA. The issue is that they want to film Horse Soldiers at Kirtland AFB.

Thanks for looking into it.

Best,

(b) (6)

(b) (6)

They have his backstory wrong in the script. The book has it correct and I verified with the actual soldier. The script makes it sound like he just fell off the turnip truck when in fact he had just completed two years as an Special Forces A-Team leader. Admittedly, he had not led his Team into combat, but he was far from being a "New Guy". I couple of dialog changes can fix it.

I guess it's about taking advantage of one's high position while they still can. I don't recall this sort of thing before (remember SECDEF's recent television appearance)but maybe I just repress the memories. I wonder how they even knew about the potential Kirtland involvement.

(b) (6) @us.af.mil> wrote:

Hi (b) (6),

It was NOT denied. The issue was timing. Kirtland has an exercise scheduled for late November. The filming was requested to begin in the first week of December. With prep and the up to 9 weeks of required time to get through KAFB's environmental requirements for any type of filming, we asked the film company if they could delay filming at KAFB until Jan 2017. The film company

is scheduled to film through Jan.

I'm am working with USA office as they are the lead service on this.

If there is more information needed, please let me know.

Do you have any background information on why the request for the movie "Horse Soldiers" to film at Kirtland AFB was denied? If you could send any information you have by COB Monday that would be great.

We were contacted by SecARMY's office to ask for more details. SecAF and SecArmy are filming the Daily Show together next Thursday in NYC so hoping to have it resolved before then. Additional background below in email traffic and attached. Please keep close hold.

If you need anything from me, just let me know. Have a great weekend!

(b) (6),

I am all for getting a letter, but we need to get their requirements. I agree with you, we don't want to have multiple letters. As I understand, they are done with White Sands until filming. White Sands informed them of the charges before they scouted the area.

(b) (6)

Per our telephone conversation, here is my request:

1. The White Sands Missile Range Public Affairs Office will be visiting the Horse Soldier film set at WSMR on 13 Jan. along with the installation's senior leaders and we would like to take some photos of the actors and/or the set for our installation newspaper which is a weekly publication. I understand that there are restrictions about releasing photos of actors, etc., but perhaps we could take the photos and hold them until the release of the film...?

2. When we visit the film site on 13 Jan., can individuals take photos with actors on their personal smart phones?

Thank you so much for looking into this for us!

(b) (6)

(b) (6) called me this morning. He is going to schedule a meeting most likely next week. The production company is probably going to ask for USAF transports (C-17 & C-130) on a flight line (like Holloman or Kirtland) to film the load out scenes at Fort Campbell. Do you want to wait for the official request before you reach out to the USAF? They do have two USAF forward air controllers in the story.

(b) (6),

I'll be arriving in Albuquerque tomorrow evening. Please send me the address of base camp as I would like to go there on Wednesday. Prior to filming on Thursday, I need to meet with you, wardrobe to make sure the uniforms are right, hair and makeup to discuss the look and grooming of the actors portraying soldiers, the 1st AD and 2nd AD, and any advisors you have on set who were part of the operations being depicted. It would also be beneficial for me to meet with the director and (b) (6) to let them know what my role is as an advisor from the Army.

I can be reached at this email and the cell number below if you need anything.

Thanks.
