

JDL leader challenges FBI

LOS ANGELES (UPI) — The leader of the Jewish Defense League has challenged the FBI to "put up or shut up" in its disclosure that a terrorist bombing that killed an Arab lobbyist in California has been attributed to the group.

Lane Bonner of the FBI in Washington said Friday the bombing at the office of the American-Arab Anti-Discrimination Committee, in Santa Ana, has been attributed to the radical organization, but that the terrorist act was still under investigation.

There have been no arrests in the explosion that killed Alex Odeh, the regional director of the committee.

"The Oct. 11 bombing that killed the director of the American-Arab Anti-Discrimination Committee has been classified by the FBI as a terrorist bombing and has been attributed to the JDL," Bonner said.

JDL leader Irv Rubin denied the group was involved in the fatal attack.

"These people (the FBI) are so incompetent and pathetic. If they had one bit of evidence they'd make an arrest," Rubin said.

"They should either put up or shut up instead of slandering the JDL. My theory is that they (Arabs) wanted a martyr and blew this poor guy away. It's beyond belief what the FBI has said."

Odeh, 41, was killed when he opened the door of his office and a powerful bomb rigged to his door exploded. He died two hours later.

Odeh's brother, Sami Odeh, 35, of Orange, a member of the Arab-

American group, said he and the organization have always blamed the JDL for the bombing.

"At least we've got the suspects and now we'll wait for the arrests. Nothing we can do will bring him back, but hopefully the people who have done it will have to face justice."

The elder Odeh, a moderate Arab-Americanized U.S. citizen, appeared on local television the night before the bombing to denounce the Oct. 7 hijacking of the Achille Lauro ship by four Palestinian gunmen who killed American Leon Klinghoffer.

During the interview, Odeh praised Palestine Liberation Organization leader Yasser Arafat for his role as a negotiator and "man of peace."

Last month, a caller to the committee's Washington headquarters claiming to represent an unknown Egyptian Coptic group claimed responsibility for the Santa Ana bombing, but investigators discounted that claim.

Bonner said FBI officials revealed last month they are looking at two East Coast bombings that may be linked to the Odeh attack.

On Aug. 15, an explosion rocked the Paterson, N.J., home of Tcherin Sookrov, a suspected former SS officer whom authorities have tried unsuccessfully to deport. He died three weeks later from his injuries.

On Sept. 6, a bomb exploded at the Long Island, N.Y., home of Elmars Sprogis, 70, injuring another man. Sprogis was not injured in the incident. Authorities have also tried unsuccessfully to deport Sprogis, accused of Nazi war crimes.

Nondenominational serenity

This is the most photographed setting in the White Mountains town of Stock, N.H., where residents have a strong sense of local identity. They are

working to get electric and telephone lines moved underground so they no

longer mar the postcard view of the covered bridge and nondenominational church. (UPI)
